BACK FROM LAKE GENEVA

Missouri's Fourteen Representatives at Summer Conference Return.

The University of Missouri had the largest delegation of any college in the Central West, at the Lake Geneva Y. M. C. A. Summer Conference June 13 to 23. The fourteen Missouri representatives returned Monday. They report this conference to have been twice as large as any previous one and in many other ways much more successful.

There were about 800 college men in attendance, representing 150 institutions and nine different states. In addition there were representatives from Canada and many European and South American countries.

The convention considered chiefly the religious and social problems of students of this section. The trip also included a short tour of Chicago and study of sociological problems there.

Missouri was represented by: E. Paul Steele, Harry Poindexter, Roy G. Wiggins, Clayton Wiley, J. Ray Cable, Elmer Anderson, Herbert Thatcher, Bredelle Jesse, Nelson Wescott, Alvin Accola, Theodore Smith, Arnot Finley, Glenn Babb and Volney McFadden.

C. W. Hickman to Teach in East.
 C. W. Hickman, a recent graduate from the College of Agriculture, of the University of Missouri, will go to Pennsylvania State College next September as instructor in animal husbandry.

GRADE PUPILS STUDYING, TOO

Children Who Failed in Arithmetic Taught by Prof. Emberson.

Sixteen students from the fifth and sixth grades of the Columbia public

schools are taking instruction in arithmetic under R. H. Emberson, professor of rural education in the University of Missouri. The course is for those who failed to pass in these grades. It will last eight weeks.

Professor Emberson made arrangements with Prof. J. E. McPherson, city superintendent of schools, to give the class as a part of his course in rural education. If a student does satisfactory work in this course it will be

accepted by Superintendent McPherson and the student will be promoted to the next grade when school opens in September.
